## Student Assistant (HiWi) – Rotorcraft and VTOL Design Basics

We are looking for a motivated student assistant to support the tutorial sessions of our undergraduate lecture Rotorcraft and VTOL Design Basics.

Your responsibilities:

- Assist in the development of learning materials, including quizzes, interactive exercises, and innovative teaching methods
- Support tutorial sessions and help students work through problem sets
- Collaborate with the course team to improve the overall learning experience

Your profile:

- Currently enrolled in a Bachelor's or Master's program, preferably in Aerospace Engineering or a related field
- Solid understanding of rotorcraft fundamentals or strong motivation to deepen your knowledge in this area
- Interest in teaching and student mentoring
- Reliable, communicative, and able to work independently

What we offer:

- Hands-on experience in university teaching and curriculum development
- Insight into modern, active learning methods
- A collaborative and supportive team environment
- Compensation according to TUM HiWi guidelines

Duration: 4-6 months

Start date: Summer Semester 2026, so start in April

Hours per week: 5-10

Interested? Please send your CV and a brief statement of motivation.
