Tutor in Engineering Thermodynamics for Winter Semester 26/27

We are looking for tutors for the Engineering Thermodynamics (ETD) course in the upcoming winter semester 2026/27.

If you have a good knowledge of technical thermodynamics and enjoy explaining challenging contents to other students, we are looking forward to you joining our ETD team. Being a ETD tutor is a great opportunity to gain valuable teaching experience and help other students to succeed in thermodynamics!

The position will be on a 5h/week base. In a team of student tutors, you will support the ETD Problem Solving Sessions and improve existing teaching materials.

Requirements

Engineering Thermodynamics
or Technical Thermodynamics 1
Good level of English
