

The *iwb* trainee program – the first step into your career

What to expect:

- exciting events, selected mentors, and the expertise of the entire *iwb* family
- a variety of practical tasks, such as working on industrial projects
- the opportunity to write your final thesis at a foreign university or in a company
- reliable salary

Your advantages:

- You start directly at the institute and take over the management of a project after completing the program.
- You benefit from what you have learned during the program and shorten your doctorate.
