

Student Assistant (Hiwi) Position at TUM Hyperloop

The TUM Hyperloop Program at the Technical University of Munich is looking for motivated student assistants (Hiwis) to support our team in exciting tasks related to technical management and international research coordination.

Your Responsibilities

- Support the group lead in developing new educational formats
- Assist in the setup and maintenance of test stands
- Contribute to the preparation and coordination of international research proposals
- Take on independent and responsible tasks in areas such as systems engineering, financial administration, team coordination, and project management

Your Profile

- You are enrolled at a German university
- You are available to work on-site in Ottobrunn
- You work independently and in a structured way, and enjoy interdisciplinary collaboration
- You have good German language skills and a sufficient command of English to work in an international academic environment

What We Offer

- First-hand experience in the technical management of a large-scale research project
- Practical insights into systems engineering, financial and project organization, and team management
- The opportunity to become part of the renowned TUM Hyperloop Team – a dynamic and young team, flat hierarchies, and plenty of room to take initiative

Interested?

We're excited to hear from you! Please send us a short introduction, your CV, and – if available – a brief description of a project you have worked on independently to domenik.radeck@tum.de
